

MPW Water Rates

Facilities Charge:

This charge covers fixed costs that Muscatine Power and Water incurs to service each customer, regardless of usage. These costs include service facilities, meter reading, bill distribution, and payment processing.

Commodity Charge:

The commodity charge is the cost of the water supply that you use – it represents actual consumption. CCF is the measure of water use. One CCF is approximately 750 gallons.

Demand Charge:

A demand charge applies to Industrial I & II customers. The demand charge will be applied to the highest of current month consumption, highest demand in preceding eleven months, or 75% of the highest monthly consumption occurring during the preceding 5-year (60 months) window. All adjusted to 30.4-day equivalent consumption.

Residential Water effective July 1, 2023

Monthly Rate:	Inside City	Outside City

Minimum Bill:

Facilities Charge plus Demand Charge

Sales Tax:

MPW assesses Iowa sales and local option taxes on water bills when applicable.

Late Payment Penalty:

MPW allows customers one late payment each year without penalty. We assess a penalty of 1.5 percent on the total water balance for additional late payments in the same year.
