Independent Auditor's Report

To the Board of Trustees
Muscatine Power and Water
Muscatine, Iowa

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the enterprise funds and fiduciary fund of Muscatine Power and Water (the Utility), a component unit of the City of Muscatine, Iowa, as of and for the years ended December 31, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the Utility's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the enterprise funds and fiduciary fund of the Utility, as of December 31, 2024 and 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Utility and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As discussed in Notes 1 and 6 to the financial statements, the Utility has adopted the provisions of GASB Statement No. 101, *Compensated Absences*, as of January 1, 2023. In accordance with GASB Statement No. 101, the financial statements as of and for the year then ended December 31, 2023, have been restated to reflect this change. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Utility's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Utility's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Utility's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Single-Employer Defined Benefit Pension Plan Schedules, Iowa Public Employees' Retirement System Schedules, and the Other Post-Employment Benefits (OPEB) Plan Schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis discussion of changes in financial position between 2022 and 2023 that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by the missing information.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the schedule of insurance coverage but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 21, 2025, on our consideration of the Utility's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Utility's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Utility's internal control over financial reporting and compliance.

The image shows a handwritten signature in cursive script that reads "Eide Bailly LLP". The signature is written in black ink and is positioned above the typed name and address.

MUSCATINE POWER AND WATER

MANAGEMENT'S DISCUSSION AND ANALYSIS

December 31, 2024 and 2023

(Unaudited)

We are providing this discussion to you, the reader of our financial statements, to explain the activities, plans and events that impacted our financial position during 2024 and 2023. This overview from management should provide the reader with information that is one of the three components of the entire financial statement. The other two components, which are audited by Eide Bailly LLP, Muscatine Power and Water's (MPW's) auditors, are the financial statements and notes to the financial statements. Please read the entire document to understand the events and conditions impacting MPW.

The Statements of Revenues, Expenses and Changes in Net Position report all revenues and expenses for the year. The Statements of Net Position include all assets, liabilities, deferred outflows of resources and deferred inflows of resources and indicate those amounts that are restricted. The Statements of Cash Flows report the cash from operating activities, as well as cash from non-capital financing activities, capital and related financing activities, and investing activities.

UTILITY FINANCIAL ANALYSIS

ELECTRIC UTILITY

The Electric Utility's retail sales were \$1.2 million higher than in 2023 due to 2.5% higher kWh sold on 0.7% lower average rate. Wholesale electric revenue in 2024 was \$8.8 million lower than in 2023 due to a 30.1% lower average price partially offset by 2.0% higher volume sold.

The Electric Utility became debt free in 2011 and continued to be debt free through 2024.

Overall retail base rate adjustments of 1.30% effective July 1, 2024 and 1.30% effective July 1, 2023 were to cover infrastructure projects necessary to improve system reliability without taking on debt. In addition, MPW reinitiated its Energy Adjustment Clause (EAC) effective with billings in April 2023. In 2024, EAC revenues were \$1.5 million, which were \$0.6 million lower than EAC revenue in 2023.

On November 25, 2014, the Board approved an amendment to the electric utility's loan agreement with the communications utility, effective January 1, 2015, that included forgiving \$25,327,000 of the amount owed, changing the fixed interest rate from 3.53% to 0.50% and modifying the amortization of the note from a 30-year period to a 20-year period. Accelerated principal payments of \$1,008,573 and \$1,501,068 were made in 2024 and 2023, respectively.

On November 29, 2022, the Board authorized the water utility to enter into a loan agreement with the electric utility, effective January 1, 2023. The primary terms of this \$2.0 million loan are a 7-year amortization schedule, a 4.5% interest rate, and principal and interest paid semi-annually. Principal payments of \$260,351 were made in 2024.

A power purchase agreement for wind energy was executed in June 2016. It is a 20-year agreement that commenced December 15, 2016 with the wind farm's commercial operation date. Total purchases were 52,319 MWh for 2024 and 53,988 MWh for 2023.

2024 COMPARED TO 2023

- Total assets and deferred outflows decreased by \$8.1 million; differences include:
 - \$6.8 million decrease in deferred outflows of resources due to GASB 68 pension adjustment;
 - \$1.6 million lower due to recognition of anticipated cost for plant decommissioning and recognized as a deferred outflow;
 - \$3.0 million lower fuel inventory;
 - \$2.5 million lower cash and investments;
 - \$1.3 million lower other assets due to note receivables from inter-utilities; offset by
 - \$6.9 million higher capital assets, net of retirements
 - Non-current liabilities decreased \$10.3 million, primarily due to a \$10.7 million decrease to net pension liability; and
 - Deferred inflows of resources increased \$3.0 million due to GASB 68.

Additional information on changes in utility plant and long-term obligations are provided in Notes 3 and 5, respectively.

Net Position - End of Year	<u>\$ 127,762</u>	<u>\$ 128,531</u>

- Total operating revenues decreased \$7.0 million, or 7.2%, primarily due to:
 - Increased retail electric sales of \$1.2 million, 1.8%, due to a 3.5% increase in higher kWh sold offsetting a decrease of 3.0% on price; offset by
 - Decreased wholesale electric sales of \$8.8 million, or 28.8%, due to 30.1% lower price on 2.0% higher volume.
- Total operating expenses decreased \$4.1 million, or 4.1%, due to:
 - \$5.0 million lower purchased electricity due to 17.0% lower average price on 2.2% higher kWh purchased; offset by
 - \$0.1 million higher emissions allowance expense;
 - \$0.1 million higher depreciation and amortization costs; and
 - \$0.6 million higher fuel costs.

2024 COMPARED TO 2023

- Cash flows from operating activities increased by \$8.3 million primarily due to:
 - \$13.1 million lower coal and gas purchases;
 - \$5.0 million lower payments for purchased power; offset by
 - \$9.7 million lower wholesale electric sales.
- \$1.5 million of higher cash flows from non-capital financing activities, which are comprised of the principal and interest on the note receivable from the Communications and Water utilities.
- Cash flows from capital and related financing activities included capital expenditures of \$13.4 million in 2024, compared to \$5.1 million in 2023.
- Cash flows from investing activities include:
 - Net investments of \$1.1 million in 2024, compared to \$5.8 million of net maturities in 2023; and
 - Interest received on investments of \$3.4 million in 2024, compared to \$2.3 million in 2023, reflect higher interest rates on higher invested asset base.

UTILITY FINANCIAL ANALYSIS (CONT.)

WATER UTILITY

The Board approved water rate increases in 2024 and 2023 in response to increased capital requirements necessary to provide for fire protection, community growth and higher operation and maintenance costs. The 2024 overall rate increase of 4.0% was effective July 1, 2024, and the 2023 overall rate increase of 8.0% was effective July 1, 2023.

In 2024, MPW's contract customers accounted for approximately 89.0% of gallons sold and 56.5% of operating revenues.

In May 2017, the Board approved the bond issuance and the payment of future obligations on those bonds for the purpose of constructing water improvements and extensions. The water utility issued \$14.9 million of water revenue bonds in June 2017 for that purpose. The outstanding principal due on the bonds was \$12.0 million on December 31, 2024.

In November 2022, the Board approved for the water utility to enter into a 7-year loan with the electric utility in the amount of \$2,000,000 at a 4.5% interest rate. The loan was issued January 1, 2023. Semiannual payments of principal and interest are due each June 30 and December 31. The outstanding principal due on the bonds was \$1.5 million on December 31, 2024.

WATER UTILITY (CONT.)

2024 COMPARED TO 2023

- Total assets and deferred outflows decreased by \$0.5 million, or 1.2%; primarily due to:
 - Cash and investments increasing \$0.2 million; offset by
 - Capital assets, net of retirements, decreasing \$0.1 million, due to normal capital spending for utility construction and acquisition projects; and
 - Deferred outflows of resources decreasing \$0.6 million.
- Total liabilities decreased by \$1.9 million, or 10.9%, primarily due to:
 - Debt and bond principal payments of \$0.8 million; and
 - Net pension liability decreasing by \$0.8 million due to annual GASB 68 adjustment.
- Deferred inflows of resources increased \$0.2 million primarily due to the GASB 68 pension adjustment.

Additional information on changes in utility plant and long-term liabilities is provided in Notes 3 and 5, respectively.

2024 COMPARED TO 2023

- Operating revenues increased \$376,400, or 4.5%, due to:
 - Total water retail sales were \$381,300 higher due to an 4.0% rate adjustment effective July 1, 2024.
- Operating expenses decreased \$25,100, or 0.3%, primarily due to:
 - \$108,600 higher depreciation and amortization costs;
 - \$75,500 higher direct labor costs;
 - \$33,800 higher operational costs;
 - \$14,300 higher administrative and general labor costs;
 - \$19,900 higher well maintenance; offset by
 - \$185,600 lower administrative and general costs;
 - \$84,600 lower purchased electricity costs; and
 - \$7,100 lower chemical costs.

COMMUNICATIONS UTILITY

Rate adjustments for the communications utility were approved by the Board for both 2024 and 2023. Effective May 1, 2024, Digital TV Basic service stayed flat at \$25.99 per month and Select Digital TV service rates increased \$5.00 to \$94.99 per month. In addition to the rate increases, a broadcast service charge increased from \$22.09 per month in 2023 to \$25.18 per month in 2024 and is applied to all packages to cover local network channel fees. In addition, the regional sports charge increased by \$0.76 to \$10.25 per month to help cover programmers' additional sports package increases.

On November 25, 2014, the Board approved an amendment to the electric utility's loan agreement with the communications utility, effective January 1, 2015, that included loan forgiveness of \$25,327,000, changing the fixed interest rate from 3.53% to 0.50%, and modifying the amortization of the note from a 30-year period to a 20-year period. Principal payments of \$1,008,573 and \$1,501,068 were made in 2024 and 2023, respectively. The 2024 principal payment was increased by \$500,000 due to favorable cash position. The principal balance as of December 31, 2024 was \$2,609,637.

On September 3, 2020, the Communications Revenue Bond, Series 2020, was signed with a local bank providing \$3.7 million for additional financing support related to the Fiber-to-the-Home project and extensions to the communications utility. This bond bears interest at the rate of 2.73% per annum. Both principal and interest are payable in 28 quarterly installments of \$145,860 each, due on March 30, June 30, September 30 and December 30, beginning December 30, 2020 with final payment due September 30, 2027. Principal payments of \$532,266 and \$517,980 were made in 2024 and 2023, respectively. The principal balance as of December 31, 2024 was \$1,540,652.

On January 5, 2021, the communications utility closed on the \$6.3 million Communications Revenue Bond, Series 2021, issued at a rate of 2.73% per annum. Both principal of and interest on this bond are payable in 27 equal quarterly installments in the amount of \$256,611 each, due on March 30, June 30, September 30 and December 30, in each of the years 2021 to 2027, beginning March 30, 2021 with final payment due September 30, 2027. A Communications Revenue Bond, Series 2017, which had a principal balance due of \$4,175,144, was paid off with proceeds from this bond issue at its closing. The principal balance as of December 31, 2024 was \$2,698,890.

2024 COMPARED TO 2023

- Total assets and deferred outflows of resources decreased \$1.4 million, or 4.3%, primarily due to:
 - \$0.7 million increase in cash and investment balances; offset by
 - \$1.2 million decrease in deferred outflows of resources due to the GASB 68 pension adjustment; and
 - \$1.2 million decrease in capital assets, net of retirements, resulting from retirements of assets no longer in service.
- Current liabilities increased \$0.3 million, or 9.8%.
- Non-current liabilities decreased \$4.5 million primarily due to:
 - \$2.5 million decrease to long term debt, net of current portion; and
 - \$1.9 million decrease in net pension liability due to GASB 68 annual adjustment.
- Deferred inflows of resources increased \$0.5 million primarily due to GASB 68.

Additional information on changes in utility plant and long-term obligations are provided in Notes 3 and 5, respectively.

Net Position - End of Year	<u>\$ 20,217</u>	<u>\$ 17,883</u>

2024 COMPARED TO 2023

- Operating revenues decreased \$49,100, or 0.3%, due to:
 - Video operating revenues decreased by \$169,100, or 2.8%, due to:
 - 6.9% decrease in the total number of video subscribers (3,608 at the end of 2024 compared to 3,876 at the end of 2023); partially offset by
 - Average rate increase of 7% in May 2024.
 - Internet revenues increased \$49,700, or 0.6%, primarily due to:
 - 1.2% increase in internet subscribers (10,352 at the end of 2024 compared to 10,230 in 2023).
 - Phone services were first made available to customers in February 2018. Revenue continues to grow, amounting to \$387,200 in 2024, up from \$363,100 in 2023.
 - Enterprise revenues increased \$60,900, or 7.2%, in 2024 primarily due to a 56% increase in number of leased fiber lines.

- Operating expenses increased by \$54,500, or 0.4%, primarily due to:
 - \$83,700 higher maintenance costs;
 - \$17,300 higher operational costs;
 - \$69,500 higher depreciation and amortization;
 - \$49,300 higher direct labor costs;
 - \$59,100 higher administrative and general labor costs;
 - \$72,100 higher programming costs; offset by
 - \$288,500 lower administrative and general costs; and
 - \$8,100 lower data access fee costs.

Cash and Cash Equivalents - Beginning of Year	<u>223</u>	<u>5,111</u>
Cash and Cash Equivalents - End of Year	<u>\$ 2,694</u>	<u>\$ 223</u>

2024 COMPARED TO 2023

- Cash flows from operating activities increased \$770,100, or 21.3%, primarily due to:
 - \$69,500 increase in cash received from retail sales;
 - \$730,200 lower cash paid to suppliers; offset by
 - \$10,400 decrease in cash received from advertising sales; and
 - \$20,200 decrease in cash from other operating sources.
- Capital and related financing activities include:
 - Capital expenditures in 2024 and 2023 totaled \$1.5 million and \$1.9 million, respectively; and
 - Debt principal and interest payments in 2024 and 2023 totaled \$2.6 million and \$3.2 million respectively.
- Cash flows from investing activities include:
 - Net investment maturities of \$1.8 million in 2024 compared to net investments of \$3.7 million in 2023; and
 - Interest received on investments of \$506,100 in 2024 compared to \$269,100 in 2023.

NOTES TO FINANCIAL STATEMENTS

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2024 and 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND STANDARDS OF ACCOUNTING

Muscatine Power and Water (utility) is a municipal utility serving the City of Muscatine, Iowa (municipality) and surrounding areas; its rates are set by the Board of Water, Electric, and Communications Trustees of the City of Muscatine, Iowa (Board). The electric utility is engaged in the generation, transmission and distribution of electric power and steam and other related activities. The water utility is engaged in the supply, purification and distribution of water and other related activities. The communications utility is engaged in providing internet, video and network services and other related activities. The equity of the utility is vested in the City of Muscatine, Iowa.

The financial statements of the utility are presented in conformity with accounting principles generally accepted in the United States of America. When reporting financial activity, the utility applies all applicable Governmental Accounting Standards Board (GASB) pronouncements, including the application of GASB 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*.

REPORTING ENTITY

The utility includes the electric, water and telecommunications enterprise funds, as well as the employee pension trust fiduciary fund. The utility is reported as a component unit in the City of Muscatine, Iowa's Annual Comprehensive Financial Report.

MEASUREMENT FOCUS, STANDARDS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred, or economic asset is used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION

CASH AND CASH EQUIVALENTS

The utility's cash and cash equivalents are considered to be general checking, saving and money market accounts. For purposes of the statements of cash flows, cash and cash equivalents have original maturities of 90 days or less at date of purchase.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION (cont.)

RECEIVABLES

An allowance for doubtful accounts is recorded annually based on historical experience and management's evaluation of receivables at the end of the year. For the years 2024 and 2023 the allowances were:

	<u>2024</u>	<u>2023</u>
Electric utility	\$61,778	\$40,910
Water utility	\$16,365	\$11,347
Communications utility	\$3,974	\$1,453

INVENTORIES

Inventories consist of fuel (e.g., coal), emission allowances, and materials and supplies valued at lower of cost or market utilizing the weighted-average cost method, with the exception of emission allowances that were held for the electric utility's steam sales customer, which are valued at market. Materials and supplies are generally used for construction, operations and maintenance work, not for resale.

RESTRICTED ASSETS

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by actions of external parties. Current liabilities payable from these restricted assets are also classified as restricted.

CAPITAL ASSETS

Capital assets are stated at original cost, which includes the cost of contracted services, material, labor, overhead and an allowance for borrowed funds used during construction for only high-cost projects.

Capital assets are generally defined by the utility as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Replacements and betterments of depreciable property units are charged to capital assets. Routine maintenance and repairs are charged to expense as incurred. At the time depreciable property units are retired, the original cost of the unit is charged to the accumulated provision for depreciation, and cost of removal less salvage is charged to gain or loss on capital asset disposal.

On an ongoing basis, the utility reviews capital assets for impairment whenever events or circumstances indicate that carrying amounts may not be recoverable. If such events or changes in circumstances occur, the utility will recognize an impairment loss. No such loss was recognized in 2024 or 2023.

Capital assets are depreciated using the straight-line method over the estimated useful lives of the respective assets.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION (cont.)

CAPITAL ASSETS (cont.)

The composite depreciation rates for 2024 and 2023 are as follows:

	<u>2024</u>	<u>2023</u>
Electric Utility		
Generation plant*	1.3 %	1.3 %
Transmission and distribution plant	2.3	2.3
General plant	2.7	3.3
Water Utility		
Source of supply	2.5 %	2.5 %
Pumping equipment	2.9	3.0
Purification system	1.8	1.7
Distribution system	2.4	2.4
General plant	6.3	5.5
Communications Utility		
Fiber Optic TV	7.6 %	9.1 %
Data/Internet	8.7	6.5
MAN	5.8	6.1
General plant	8.7	9.7

*The utility has determined that the remaining lives of coal-fired generation assets are shorter than had been used prior to October 2020. Units 7 and 8 (Plant 1) are planned for retirement by December 31, 2028. Therefore, depreciation on those assets was accelerated from October 2020. Unit 8A ceased operations in December 2022; therefore, it has been fully depreciated. For Unit 9, its planned retirement is anticipated as early as December 31, 2035. Therefore, depreciation of Unit 9 assets was also accelerated from October 2020 but with a longer remaining life than Plant 1 assets.

Right-to-use subscription IT assets are recognized at the subscription commencement date and represent the utility's right to use the underlying IT asset for the subscription term. Right-to-use subscription IT assets are measured at the initial value of the subscription liability plus any payments made to the vendor at the commencement of the subscription term. Right-to-use IT assets are amortized over the subscription term using the straight-line method. The amortization periods vary from 3 to 5 years.

DEFERRED OUTFLOW OF RESOURCES

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until that future time. Pension deferred outflows relate to the GASB Statement No. 68 pension liability. Details of the account are included in Notes 8, 10 and 11. OPEB deferred outflows relate to the GASB Statement No. 75 OPEB liability. Details of the account are included in Note 7. Plant decommissioning deferred outflows relate to the recording of decommissioning expenses over the expected lives of the retiring units described in Note 19.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION (cont.)

COMPENSATED ABSENCES

It is the utilities' policy to permit employees to accumulate earned but unused vacation and sick pay benefits that are collectively referred to as compensated absences. Vacation pay is payable to employees upon retirement or termination. The liability for compensated absences is calculated under the provisions of GASB Statement No. 101, Compensated Absences, which was adopted this fiscal year.

ACCRUED EXPENSES

Accrued expenses include unpaid sales tax, use tax, excise tax, accrued payroll and payroll taxes, accrued vacation, interest on customer deposits, insurance claim reserves, property tax and cable franchise fees payable to the city and surrounding communities.

UNEARNED REVENUE

The electric utility's unearned revenue is a result of prepayments for a land contract, capacity sales and renewable energy credits. The water utility's unearned revenue is deposits received for future construction projects. The communications utility's unearned revenue is a result of a 20-year contract to lease dark fiber to a large customer.

POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

For purposes of measuring the total OPEB liability and determining the OPEB expense, there is no fiduciary net position for the OPEB Plan. The OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. See Note 7 for additional information.

PENSIONS LIABILITY

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and determining pension expense, information about the fiduciary plan net position of Muscatine Water and Electric Employees' Pension Plan and the Iowa Public Employees' Retirement System and additions to and deductions from the plans' fiduciary net positions have been determined on the same basis as they are reported by the plans. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Notes 8, 10 and 11 for additional information.

LANDFILL CLOSURE AND POST-CLOSURE LIABILITY

The landfill liability relates to the GASB Statement No. 18 municipal solid waste landfill closure. Details of the account are included in Note 18.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION (cont.)

PLANT DECOMMISSIONING

Plant decommissioning liability is in accordance with GASB Statement No. 62 Accounting and Financial Reporting Guidance. Details of the account are included in Note 19.

SUBSCRIPTION LIABILITY

Subscription liabilities represent the utility's obligation to make subscription payments arising from the subscription contract. Subscription liabilities are recognized at the subscription commencement date based on the present value of future subscription payments expected to be made during the subscription term. The present value of subscription payments are discounted based on a borrowing rate determined by the utility.

DEFERRED INFLOWS OF RESOURCES

A deferred inflow of resources represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that future time. Pension deferred inflows relate to the GASB Statement No. 68 pension liability. Details of the account are included in Notes 8, 10 and 11. OPEB deferred inflows relate to the GASB Statement No. 75 OPEB liability. Details of the account are included in Note 7.

The Board may, at its discretion, set aside earnings to help maintain stability in the electric utility's long-term rate structure. These earnings, placed in the Extraordinary O&M Account, may be used for extraordinary operating expenses and debt service when deemed necessary by the Board. No deferment or use of the Extraordinary O&M Account occurred in 2024 or 2023.

NET POSITION

The net position of the Utility is presented in the following components:

Net investment in capital assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. Deferred outflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt are included in this component of net position.

Restricted – Consists of restricted assets with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors or laws and regulations of other governments, or (b) law through constitutional provisions or enabling legislation, reduced by liabilities related to those assets. Generally, a liability relates to restricted assets if the assets result from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported.

Unrestricted – Consists of all other assets that do not meet the definition of "restricted" or "net investment in capital assets."

It is the Utility's policy to first use restricted components of net position prior to the use of unrestricted components of net position when an expense is incurred for purposes for which both restricted and unrestricted components of net position are available.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION (cont.)

CHARGES FOR SERVICES

Electric and water billings are rendered and recorded monthly based on metered usage. Communications billings are rendered and recorded monthly based on the type of service provided. Rates were approved by the Board of Trustees as follows:

Current electric rates were approved on March 28, 2023 and effective for service beginning July 1, 2024.

Current water rates were approved on March 28, 2023 and became effective for service beginning July 1, 2024.

Current communications prices were approved on March 28, 2024 and became effective for service beginning May 1, 2024.

OPERATING REVENUES AND EXPENSES

The utility distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the utility's principal ongoing operations. The principal operating revenues of the utility are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues, capital contributions or nonoperating expenses.

Revenues are recorded as services are rendered to customers. The electric and water utilities' revenues include an estimate of unbilled revenues for services rendered only to certain residential and small commercial customers from the date of the last meter reading to yearend. The communications utility's revenues include amounts billed to customers for cable and Internet services, installations, advertising and other services. Revenues from cable and internet services, installation and other services are recognized when the services are provided to the customers. Advertising sales are recognized in the period that the advertisements are exhibited. The communications utility's revenues include an estimate of unbilled revenues for service rendered only to certain residential and small commercial customers from the date of their previous bill's generation to yearend. The unbilled revenue recorded in 2024 for the electric, water and communications utilities are \$589,954, \$121,915 and \$202,730, respectively. The unbilled revenue recorded in 2023 for the electric, water and communications utilities are \$590,288, \$120,161 and \$120,301, respectively.

CAPITAL CONTRIBUTIONS

Cash and capital assets are contributed to the utility from customers, the municipality or external parties. Contributed capital assets are recorded at acquisition value at the date of donation. The value of property contributed to the utility is reported as an adjustment on the statements of revenues, expenses and changes in net position.

INCOME TAX STATUS

The utility is exempt from federal and state income taxes under the applicable tax codes.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2024 and 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION (cont.)

IMPLEMENTATION OF GASB STATEMENT NO 101

As of January 1, 2023, the utility adopted GASB Statement No 101, Compensated Absences. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used, and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. With respect to financial statements prepared using the current financial resources measurement focus, this Statement requires that expenditures be recognized for the amount that normally would be liquidated with expendable available financial resources. This Statement amends the existing requirements to disclose the gross increases and decreases in a liability for compensated absences to allow governments to disclose only the net change in the liability (as long as governments identify it as a net change). In addition, governments are no longer required to disclose which governmental funds typically have been used to liquidate the liability for compensated absences.

NOTE 2 – DEPOSITS AND INVESTMENTS

State of Iowa (State) law and the utility's written investment policy, authorize the utility to invest in certain certificates of deposit, interest bearing savings accounts, money market accounts, obligations of the United States of America or any of its agencies and instrumentalities, prime bankers' acceptances, commercial paper and perfected repurchase agreements. The utility's written investment policy provides additional guidelines as to portfolio mix, maturity and quality of investments.

Deposits and investments consist primarily of investments in the Iowa Public Agency Investment Trust (IPAIT), U.S. Treasury obligations, and certificates of deposit. Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Adjustments necessary to record investments at fair value are recorded in the statements of revenues, expenses and changes in net position as increases or decreases in investment income. Investment income is allocated to the electric, water and communications utilities' revenue funds as appropriate.

Deposits in each local and area bank are insured by the FDIC up to the amount of \$250,000 for time and savings accounts and interest-bearing demand and non-interest bearing deposit accounts or insured by the state through pooled collateral, State sinking funds and by the State's ability to assess for lost funds in accordance with Chapter 12C of the Code of Iowa. If deposits are held in an institution outside of the state in which the utility is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2024 and 2023

NOTE 2 – DEPOSITS AND INVESTMENTS (cont.)

The cash balance reported in the financial statements include investments in the Iowa Public Agency Investment Trust (IPAIT) which are valued at an amortized cost of \$15,167,577 on December 31, 2024, and \$16,472,684 on December 31, 2023. There are no limitations or restrictions on withdrawals for these IPAIT investments. The utilities' investment in IPAIT is unrated.

The utilities had the following investments:

<u>Investment</u>	<u>Fair Value as of December 31, 2024</u>	<u>Fair Value as of December 31, 2023</u>
U.S. Treasury obligations	\$ 36,978,872	\$ 20,248,387
U.S. Federal Agency Securities	0	2,996,362
Certificate of Deposits (report at cost)	15,000,000	30,750,000
Total Investments	<u>\$ 51,978,872</u>	<u>\$ 53,994,749</u>

CUSTODIAL CREDIT RISK

Deposits (cash, checking accounts, money markets, non-negotiable certificates of deposits)

Custodial credit risk is the risk that in the event of a financial institution failure, the utility's deposits may not be returned to the utility. The utility's deposits at yearend were covered by federal depository insurance or insured by the State through pooled collateral, State sinking funds and by the State's ability to assess for lost funds in accordance with Chapter 12C of the Code of Iowa.

It is the policy of the utility to maintain all deposits and investments in authorized investment vehicles that are insured or registered in the utility's name or which are collateralized by or evidenced by securities held by the utility or its agent in the utility's name.

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the utility will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The utilities had no custodial risk with regards to investments since all investments were held by the utilities or their agent in the utilities' name. There were no investments held on December 31, 2024, or 2023 that were subject to custodial credit risk.

It is the policy of the utility to maintain all deposits and investments in authorized investment vehicles that are insured or registered in the utility's name or are collateralized by or evidenced by securities held by the utility or its agent in the utility's name.

CREDIT RISK

Credit risk is the risk an issuer or other counterparty to an investment will not fulfill its obligations. The utility's U.S. Treasury investments and agency securities are rated AA+ by S&P Global as of December 31, 2024, and 2023. The utility held no investments as of December 31, 2024, or 2023 that were subject to credit risk.

It is the policy of the utility to have securities held by the utility or a third party custodian and rated within the highest or second highest rating category of a nationally recognized rating agency.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 2 – DEPOSITS AND INVESTMENTS (cont.)

CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. On December 31, 2024, and 2023, MPW held 51% and 32%, respectively, of its cash and investments in U.S. Treasuries and agency securities; these investments are considered risk-free and therefore not a concentration of risk. The utility held no investments as of December 31, 2024, or 2023 that were subject to concentration of credit risk.

It is the policy of the utility to diversify its investment portfolio. Assets are diversified to eliminate the risk of loss resulting from over-concentration of assets in a specific maturity, a specific issuer or a specific class of securities.

INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

All the U.S. Treasury investments held on December 31, 2024, and 2023 mature within two years.

The utility's investment policy addresses maturity limitations by requiring operating funds to be invested in instruments that mature within 397 days. Non-operating funds may be invested in instruments with maturities longer than 397 days as long as the maturities are consistent with the needs and use of the utility. One of the investment policy's primary objectives is to maintain the necessary liquidity to match expected cash flow needs and provide for unexpected needs.

During 2024, the Board approved holding up to 10% of cash and investments in maturities greater than 397 days. A formal investment policy change will take place mid-2025 during the next cycle of Board policy approvals.

FAIR VALUE MEASUREMENTS

The utility categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The recurring fair value measurement for the U.S. Treasury investments and agency securities are valued by the custodians of the securities using pricing models based on credit quality, time to maturity, stated interest rates and market-rate assumptions (level 2 inputs). There have been no changes in valuation methodologies on December 31, 2024, compared to December 31, 2023. Treasuries were new to the MPW portfolio in 2022.

FIDUCIARY FUND INVESTMENTS – PENSION TRUST FUND

Deposits (cash, checking accounts, money markets, non-negotiable certificates of deposits)

The plan held no deposits as of the measurement dates: December 31, 2024 and December 31, 2023.

CREDIT RISK

Separate pension investment accounts held at The Principal Financial Group (Principal) and IPERS are commingled pools, rather than individual securities. As a result, these accounts are not rated. Accounts held at Principal and by IPERS are not subject to concentration of credit risk, custodial credit risk or foreign currency risk.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 2 – DEPOSITS AND INVESTMENTS (cont.)

CONCENTRATIONS

All amounts are invested in a variety of funds with each of those funds making decisions on specific investments, which approach minimizes specific default risks.

DERIVATIVES

Separate investment accounts held at Principal may use derivatives as part of their investment strategy. These accounts are comingled pools, rather than individual securities.

FIDUCIARY FUND INVESTMENTS – PENSION TRUST FUND

INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

The pension trust fund held the following investments as of the measurement date of December 31, 2024, subject to interest rate risk.

<u>Investment Type</u>	<u>Fair Value</u>	<u>Years to Maturity</u>
Large U.S. equity	\$ 33,026,783	N/A
Small/mid U.S. equity	13,581,557	N/A
International equity	20,093,464	N/A
U.S. property SA-14	6,383,388	N/A
Fixed income:		
High income separate account-Z	2,647,170	3.47
Bond market index separate account-Z	7,545,228	5.98
Core fixed income separate account-Z	<u>22,654,230</u>	6.08
Total Investments	<u>\$ 105,931,820</u>	

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 2 – DEPOSITS AND INVESTMENTS (cont.)

The pension trust fund held the following investments as of the measurement date December 31, 2023, subject to interest rate risk.

<u>Investment Type</u>	<u>Fair Value</u>	<u>Years to Maturity</u>
Large U.S. equity	\$ 36,995,633	N/A
Small/mid U.S. equity	6,637,927	N/A
International equity	18,961,669	N/A
U.S. property SA-14	6,499,738	N/A
Fixed income:		
High income separate account-Z	2,374,951	3.21
Bond market index separate account-Z	6,764,406	5.98
Core fixed income separate account-Z	<u>20,289,367</u>	6.08
Total Investments	<u>\$ 98,523,691</u>	

FAIR VALUE MEASUREMENTS

The pension trust fund uses net asset value (NAV) per share, or its equivalent, such as member units, as a practical expedient to estimate the fair values of the commingled pools, which do not have readily determinable fair values. Investments that are measured at fair value using NAV per share as a practical expedient are not classified in the fair value hierarchy.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2024 and 2023

NOTE 5 – NON-CURRENT LIABILITIES (cont.)

NON-CURRENT LIABILITIES SUMMARY – WATER

In May 2017, the Board approved the issuance and securing the payment of future obligations for the purpose of borrowing money for constructing water improvements and extensions. The water utility issued \$14,865,000 Water Revenue Bonds, Series 2017 in June 2017 for that purpose. The premium bonds are S&P Global “A” rated (with insurance increasing the rating to S&P Global “AA”), a non-bank qualified issue, callable June 1, 2027 at par. The effective interest cost is approximately 3.51%. The interest payments that are due each June 1 and December 1 began December 1, 2017. Principal payments are due annually December 1 and began in 2018. Total outstanding bonds payable at December 31, 2024 and December 31, 2023 were \$12,040,000 and \$12,485,000, respectively.

Events of default are defined as either: (1) the non-payment of interest, principal, or premium when the same shall become due and payable, (2) a bankruptcy proceeding where there is an admission of the inability to pay this debt, or (3) any event of default under any parity obligation or parity obligation issuance document. In the event of default, the principal of and the accrued interest on all bonds then outstanding will be due and payable immediately.

In November 2022, the Board approved for the water utility to enter into a 7-year loan with the electric utility in the amount of \$2,000,000 at a 4.5% interest rate. The loan was issued January 1, 2023. Semiannual payments of principal and interest are due each June 30 and December 31.

Totals	<u>\$ 1,490,629</u>	<u>\$190,617</u>	<u>\$ 1,681,246</u>

All water utility revenues, net of specified operating expenses, are pledged as security of the water debt until fully paid. Principal and interest paid in 2024 and 2023, and water utility net revenues are as follows:

	2024	Restated 2023
Principal and interest paid	\$ 946,700	\$ 947,250
Net revenues	2,834,659	2,288,757

Principal and interest payments were 33% of water utility net revenues in 2024 and 41% in 2023.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 5 – NON-CURRENT LIABILITIES (cont.)

NON-CURRENT LIABILITIES SUMMARY – COMMUNICATIONS

Prior to 2004, the electric utility advanced \$35,327,000 to the communications utility for capital improvements and acquisition of a cable television system. On November 25, 2014, the Board approved an amendment to this loan agreement that included loan forgiveness of \$25,327,000, changing the fixed interest rate from 3.53% to 0.50% and modifying the amortization of the note from a 30-year period to a 20-year period. These new terms became effective January 1, 2015. Annual principal payments began January 1, 2016; semiannual payments of interest are due each January 1 and July 1.

On September 8, 2020, the Communications Revenue Bond, Series 2020 was signed with a local bank providing \$3,700,000 for telecommunications systems improvements and extensions to the communications utility. Principal bears interest at the rate of 2.73% per annum. Both principal and interest are payable in 28 equal quarterly installments of \$145,860 each, due on March 30, June 30, September 30 and December 30, which began December 30, 2020; final payment is due September 30, 2027. Upon breach or default of the bond or parity obligations and the related Board bond resolution, a proceeding may be brought in law or in equity by suit, action, or mandamus to enforce and compel compliance with the bond's terms, or action may be brought to obtain the appointment of a receiver to take possession of and operate the communications utility and to perform the duties required by the bond resolution and the Code of Iowa. This bond was issued as a first step of refinancing the Series 2017 Bond.

On January 5, 2021, the communications utility closed on the \$6,300,000 Communications Revenue Bond, Series 2021, issued at a rate of 2.73% per annum. Both principal and interest on this bond are payable in 27 equal quarterly installments in the amount of \$256,611 each, due on December 30, March 30, June 30 and September 30 in each of the years 2021 to 2027, inclusive, commencing March 30, 2021. The final payment is September 30, 2027. Upon breach or default of the bond or parity obligations and the related Board bond resolution, a proceeding may be brought in law or in equity by suit, action, or mandamus to enforce and compel compliance with the bond's terms, or action may be brought to obtain the appointment of a receiver to take possession of and operate the communications utility and to perform the duties required by the bond resolution and the Code of Iowa. The Communications Revenue Bond, Series 2017, was paid off with proceeds from this bond issue.

NOTE 5 – NON-CURRENT LIABILITIES (cont.)

NON-CURRENT LIABILITIES MATURITY SCHEDULE – COMMUNICATIONS

Communications loan debt service requirements to maturity as of December 31, 2024 are as follows:

Year Ending December 31	Electric Utility Loan			2020 Bank Loan - Direct Placement			2021 Bank Loan - Direct Placement		
	Principal Amount	Interest 0.50%	Total	Principal Amount	Interest 2.73%	Total	Principal Amount	Interest 2.73%	Total
2025	\$ -	\$ 6,524	\$ 6,524	\$ 546,947	\$ 36,492	\$ 583,439	\$ 962,563	\$ 63,881	\$ 1,026,444
2026	513,616	5,240	518,856	562,032	21,407	583,439	989,111	37,333	1,026,444
2027	516,184	3,950	520,134	<u>431,674</u>	<u>5,905</u>	<u>437,579</u>	<u>747,216</u>	<u>10,138</u>	<u>757,354</u>
2028	518,765	2,653	521,418						
2029	521,359	1,349	522,708						
2030	523,966	39	524,005						
2031	<u>15,745</u>	<u>0</u>	15,745						
Totals	<u>\$ 2,609,637</u>	<u>\$ 19,755</u>	<u>\$ 2,629,392</u>	<u>\$ 1,540,653</u>	<u>\$ 63,804</u>	<u>\$ 1,604,457</u>	<u>\$ 2,698,890</u>	<u>\$ 111,352</u>	<u>\$ 2,810,242</u>

The communications utility made voluntary early principal payments for the electric utility loan of \$0.5 million in 2024 and \$1.0 million in 2023.

All communications utility revenues, net of specified operating expenses, are pledged as security of the communications debt until fully paid. Principal and interest paid in 2024 and 2023, excluding that paid to the electric utility, and communications utility net revenues are as follows:

	<u>2024</u>	<u>Restated 2023</u>
Principal and interest paid	\$ 1,609,883	\$ 1,609,883
Net revenues	4,463,203	4,502,107

Principal and interest payments were 36% of communications utility net revenues in 2024 and 36% in 2023.

NOTE 5 – NON-CURRENT LIABILITIES (cont.)

SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS (SBITAs)

In the prior year, the utility entered into a SBITA contract for the use of Imprivata Proximity USB readers and mobile device access. As of December 31, 2024, the value of the subscription liability was \$0. The utility is required to recognize annual principal and interest payments of \$21,760 through March 2025. The subscription liability was valued using a discount rate of 4.5% based on the utility's incremental borrowing rate.

In the prior year, the utility entered into a SBITA contract for the use of Journyx payroll software. As of December 31, 2024, the value of the subscription liability was \$0. The utility is required to recognize annual principal and interest payments of \$24,660 through April 2025. The subscription liability was valued using a discount rate of 4.5% based on the utility's incremental borrowing rate.

In the prior year, the utility entered into a SBITA contract for the use of Sphera Cloud CM Pro software. As of December 31, 2024, the value of the subscription liability was \$0. The utility is required to recognize annual principal and interest payments of \$12,807 through June 2025. The subscription liability was valued using a discount rate of 4.5% based on the utility's incremental borrowing rate.

In the prior year, the utility entered into a SBITA contract for the use of NISC customer service software. As of December 31, 2024, the value of the subscription liability was \$826,991. The utility is required to recognize monthly principal and interest payments of \$23,630 through March 2028. The subscription liability was valued using a discount rate of 4.5% based on the utility's incremental borrowing rate.

In the current year, the utility entered into a SBITA contract for the use of Secureworks iSensor software. As of December 31, 2024, the value of the subscription liability was \$29,840. The utility is required to recognize annual principal and interest payments of \$15,747 through December 31, 2026. The subscription liability was valued using a discount rate of 4.5% based on the utility's incremental borrowing rate.

In the current year, the utility entered into a SBITA contract for the use of OSI Monarch Gold support services. As of December 31, 2024, the value of the subscription liability was \$514,752. The utility is required to recognize annual principal and interest payments of \$107,461 or more through August 31, 2030. The subscription liability was valued using a discount rate of 4.5% based on the utility's incremental borrowing rate.

In the current year, the utility entered into a SBITA contract for the use of Ion Wave software and support services. As of December 31, 2024, the value of the subscription liability was \$28,585. The utility is required to recognize annual principal and interest payments of \$15,000 or more through July 31, 2027. The subscription liability was valued using a discount rate of 4.5% based on the utility's incremental borrowing rate.

In the current year, the utility entered into a SBITA contract for the use of Pomeroy IT Solutions Vsphere software. As of December 31, 2024, the value of the subscription liability was \$45,079. The utility is required to recognize annual principal and interest payments of \$24,244 or more through November 14, 2027. The subscription liability was valued using a discount rate of 4.5% based on the utility's incremental borrowing rate.

A summary of the changes in subscription IT liabilities during the year ended December 31, 2024 is as follows:

	Balance			Balance	Due Within
	December 31, 2023	Additions	Payments	December 31, 2024	One Year
Subscription IT Liabilities	\$1,153,278	\$775,256	(\$478,200)	\$1,450,334	\$394,151

NOTE 6 – NET POSITION

GASB No. 34 requires the classification of net position into three components: net investment in capital assets, restricted and unrestricted. These classifications are defined as follows:

Net investment in capital assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any external bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. If there are significant unspent related debt proceeds at yearend, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

Restricted – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation, including restrictions by the utility's Board of Trustees.

Unrestricted – This component of net position does not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use for the same purpose, it is the utility's policy to use unrestricted resources first (except for principal and interest on debt), then restricted resources as they are needed.

The following calculation supports the electric utility's net investment in capital assets:

	2024	2023
Plant in Service	\$ 446,293,048	\$ 439,746,216
Construction Work in Progress	7,487,983	1,136,242
Subscription Based IT Assets	1,431,536	686,287
Accumulated Depreciation	(378,082,427)	(371,295,432)
Subtotals	<u>77,130,140</u>	<u>70,273,313</u>
Less: Subscription Based IT Arrangements	<u>959,058</u>	<u>518,037</u>
Net Investment in Capital Assets	<u>\$ 76,171,082</u>	<u>\$ 69,755,276</u>

As of and for the Years Ended December 31, 2024 and 2023

NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS

The utility-administered, single-employer group health insurance defined benefit plan provides coverage to active employees and retirees (or other qualified terminated employees age 55 with 5 years of service) at blended premium rates. This coverage results in the other post-employment benefit (OPEB) for the retirees, commonly referred to as an implicit rate subsidy. Spouses are covered until age 65.

Retirees participating in the plan contribute 100% of the blended contribution. The utility, by contributing its portion of the blended premium for active employees, in effect contributes the difference between the blended contribution and a retiree age adjusted contribution. For a small group of grandfathered retirees, the utility pays a \$50 healthcare supplement.

As of the measurement date, the following plan members (including Muscatine Area Geographic Information Consortium, "MAGIC," employees – see Note 17) were covered by the benefit terms:

	Measurement date	12/31/2023	12/31/2022
	Fiscal year end	12/31/2024	12/31/2023
Active plan members		255	255
Inactive plan members entitled to but not yet receiving benefits		0	0
Retired plan members or beneficiaries currently receiving benefits		<u>23</u>	<u>23</u>
TOTAL		<u>278</u>	<u>278</u>

For fiscal years 2024, 2023, and 2022, the utility contributed \$71,723, \$72,238 and \$74,549, respectively, to the plan for retiree benefit payments.

The following schedule of changes in the total OPEB liability is based on the actuarial valuation report as of December 31, 2024.

	<u>2024</u>	<u>2023</u>
Service cost	\$48,234	\$55,803
Interest on net OPEB obligation	49,950	36,435
Differences between expected and actual experience	-	(10,379)
Changes in assumptions	-	(41,231)
Benefit payments	<u>(71,723)</u>	<u>(72,238)</u>
Net change in total OPEB obligation	26,461	(31,610)
Total OPEB Obligation - Beginning of Year	<u>\$1,127,680</u>	<u>\$1,159,290</u>
Total OPEB Obligation - End of Year	<u>\$1,154,141</u>	<u>\$1,127,680</u>

OPEB EXPENSE AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO OPEBS

For the years ended December 31, 2024 and December 31, 2023, the utility recognized net change in total OPEB liability of \$26,461 and -\$31,610, respectively. On December 31, 2024, the utility reported deferred outflows of resources and deferred inflow of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in assumptions	\$130,134	\$56,985
Difference between actual and expected experience	20,924	20,021
Contributions subsequent to measurement date	71,723	-
	<u>\$222,781</u>	<u>\$77,006</u>

On December 31, 2023, the utility reported deferred outflows of resources and deferred inflow of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in assumptions	\$157,883	\$83,949
Difference between actual and expected experience	35,342	23,778
Contributions subsequent to measurement date	72,238	-
	<u>\$265,463</u>	<u>\$107,727</u>

Amounts reported as deferred outflows and inflows of resources related to OPEBs will be recognized in the OPEB expense as follows:

<u>Fiscal Year ending 12/31</u>	Deferred Outflows of Resources	Deferred Inflows of Resources
2025	38,846	24,070
2026	34,257	14,891
2027	31,065	11,761
2028	27,748	8,497
2029	19,142	7,699
Thereafter	-	10,088
Totals	<u>\$151,058</u>	<u>\$77,006</u>

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS (cont.)

The following deferred outflows and deferred inflows are recognized in OPEB expense:

- 1) Differences between expected and actual experience, over a closed period equal to the average of the expected remaining service lives of all employees (active employees, vested terminated employees and retirees).
- 2) Changes in assumptions over a closed period equal to the average of the expected remaining service lives of all employees (active employees, vested terminated and retirees).

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate			
	1% Decrease 3.38%	Discount Rate 4.38%	1% Increase 5.38%
Total OPEB Liability 12/31/24	\$1,260,253	\$1,154,141	\$1,059,844
Total OPEB Liability 12/31/23	\$1,231,359	\$1,127,680	\$1,035,545
Sensitivity of the Total OPEB Liability to Changes in Healthcare Trend Rate			
	1% decrease	Trend Rate	1% Increase
Total OPEB Liability 12/31/24	\$1,042,519	\$1,154,141	\$1,285,116
Total OPEB Liability 12/31/23	\$1,018,617	\$1,127,680	\$1,255,652

There are no plan assets under this plan.

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation, the entry age actuarial cost method was used. Under this method, the present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the earnings between entry age and assumed exit age(s). The portion of the present value allocated to a year is the service cost.

As of and for the Years Ended December 31, 2024 and 2023

NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS (cont.)

ACTUARIAL ASSUMPTIONS

The total OPEB liability in the report for plan fiscal ending December 31, 2022 and 2023 (measurement period of January 1, 2022 to December 31, 2022) was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Discount rate	4.38% Barclays Municipal GO Long Term (17+Y) index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher, as of the measurement date.
Mortality rate	Based on Pri-2012 Total dataset base rate mortality table projected generationally using the Principal 2022 scale.
Retirement rates	Ages 62-64 - 25%; Age 65 – 100%.
Marriage	75% married; male is 3 years older than female.
Withdrawal	2003 Society of Actuaries Basic Plan Age Table, multiplied by 0.60.
Healthcare cost increases	2023 – 1.36%; 2024 – 7.5%; 2025 – 7.0%; 2026 6.50%; 2027 6.00%; decreasing by 0.25% per year through 2032; 2033+ 4.50%/year.
Participation rate	75% of future retirees.

NOTE 8 – SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLAN

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, the information about the fiduciary net position of the Plan and additions to and deductions from Muscatine Water and Electric Employees' Pension Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments in separate accounts held at The Principal Financial Group (the plan administrator) are commingled pools, rather than individual securities; they are valued as of the December 31, 2023 measurement date at fair market value.

GENERAL INFORMATION ABOUT THE PENSION PLAN

The utilities provide and administer a single-employer defined benefit pension plan with benefits to eligible vested full-time utility and part-time utility employees at separation of service. Eligible employees are those who are not participants in the Iowa Public Employees' Retirement System (IPERS). Water utility employees or new employees that were participants of IPERS can choose to participate in either IPERS or the Plan. Total covered valuation payroll for the years ended December 31, 2024 and December 31, 2023 were \$22,900,606 and \$22,684,111, respectively. Participants are 100% vested at the completion of five years of service. Benefits are generally equal to 1.5% of the employee's average highest five consecutive years of compensation (Average Compensation) multiplied by credited years of service. An additional benefit is available in an amount equal to 0.5% of the employee's Average Compensation in excess of Social Security Covered Compensation, if any, multiplied by credited years of service, up to 35 years. Benefit provisions are established under the Plan as adopted by the utility's Board of Trustees. The funding is approved and amended by the utility's pension committee with oversight by the Board of Trustees, whose members are nominated by a committee consisting of the mayor, two city council members and the city administrator, then ratified by the city council. There are no non-employer contributing entities, as defined by GASB 67, *Financial Reporting for Pension Plans*, and GASB 68, *Accounting and Financial Reporting for Pensions*, for this plan. There are no special funding situations, as defined by GASB 67 and 68, for the Plan. The Plan currently does not issue a stand-alone financial report.

As of the measurement date, the following plan members (including MAGIC employees – see Note 17) were covered by the benefit terms:

	Fiscal year end: <u>12/31/2024</u> <u>12/31/2023</u>	
Active plan members	251	255
Inactive plan members entitled to but not yet receiving benefits	99	99
Disabled plan members entitled to benefits	0	0
Retired plan members or beneficiaries currently receiving benefits	<u>252</u>	<u>242</u>
TOTAL	<u>602</u>	<u>596</u>

The pension plan provides for retirement, disability and death benefits. There have been no changes in plan provisions during the measurement period and between the December 31, 2023 measurement date and the end of the December 31, 2024 reporting period.

The starting basis for determining contributions is an actuarially determined contribution (ADC) that is calculated in the plan's Actuarial Valuation Report dated December 31, 2024. The ADC is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with additional amounts to finance any unfunded accrued liability and plan administrative expenses. The ADC for the measurement period ending December 31, 2024 was \$3,380,002, equal to 14.8% of covered valuation payroll; the ADC for the measurement period ending December 31, 2023 was \$3,192,565, equal to 14.1% of covered valuation payroll. Employer contributions for the years ending December 31, 2024 and December 31, 2023 equaled \$3,420,000 and \$4,005,000, respectively, which was in excess of the ADC.

NOTE 8 – SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLAN (cont.)

ACTUARIAL ASSUMPTIONS

The entry age actuarial cost method is used for this disclosure. Under this method, the present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the earnings between entry age and assumed exit age(s). The portion of the present value allocated to a year is the service cost. Projected benefits are based on projected salary and projected service.

A measurement period of December 31, 2022 to December 31, 2023 has been used for the fiscal year ending December 31, 2024 for GASB 68 reporting. The net pension liability reported for the year ending December 31, 2024 was measured as of December 31, 2023, using the pension liability that was determined by an actuarial valuation as of December 31, 2023. The plan administrator does a comprehensive review of the economic and demographic assumptions. The following were used for the years ending December 31, 2024 and December 31, 2023:

	<u>Rate</u>
Inflation	2.40%
Investment rate of return	6.00%
Salary increases (age-based)	Age 25-6.18%; Age 40-4.72%; Age 55-3.88%
Retirement rate	25% at Age 62; 25% at Age 63; 25% at Age 64; 25% at Age 65
Wage base	3.50%
Marriage rate	75%

Active and inactive participants are assumed to retire at normal retirement age, or current age if later. This assumption is based on the results of recent experience analysis and anticipated future experience.

Mortality rates are based on Pri-2012 total dataset mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2023).

The expected long-term return on plan assets assumption was developed as a weighted average rate based on the target asset allocation of the plan and the Long-Term Capital Market Assumptions (CMA) 2023. The capital market assumptions were developed with a primary focus on forward-looking valuation models and market indicators. The key fundamental economic inputs for these models are future inflation, economic growth and interest rate environment. Due to the long-term nature of the pension obligations, the investment horizon for the CMA 2023 is 20 years.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 8 – SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLAN (cont.)

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
US Equity - Large Cap	37.64%	7.80%
US Equity - Mid Cap	4.51%	8.35%
US Equity - Small Cap	2.24%	8.70%
Non-US Equity	18.79%	8.00%
US Private Real Estate	7.15%	6.85%
High Yield Bond	2.44%	6.30%
Core Bond	<u>27.23%</u>	4.40%
Total	<u>100.00%</u>	

The discount rate used to determine the end of period total pension liability was 5.88%. The plan's fiduciary net position and benefit payments were projected to determine if the plan's fiduciary net position was greater than or equal to the expected benefit payments for each period from 2023 to 2121. Benefit payments after 2121 are projected to be \$0. The long-term rate of return of 6.00% is used to calculate the actuarial present value of projected payments for each future period when the projected fiduciary net position is greater than the projected expected benefit payments. Otherwise, a municipal bond rate of 3.63% is used. The municipal bond rate is from Bloomberg Barclays Municipal GO Long Term (17+ Y) Index, which includes 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher securities, as of the December 31, 2023 measurement date. The discount rate is a single rate that incorporates the long-term rate of return and municipal bond rate as described. The discount rate used to determine the beginning-of-period total pension liability is 5.46%.

PENSION EXPENSE AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

For the years ended December 31, 2024 and December 31, 2023, the utility recognized pension expense (income) of \$2,276,111 and \$5,394,828, respectively. At December 31, 2024, the utility (including MAGIC – see Note 17) reported deferred outflows of resources and deferred inflow of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes of assumptions	\$2,294,139	\$4,105,186
Difference between actual and expected experience	327,633	123,461
Difference between projected and actual earnings	3,617,897	-
Contributions subsequent to measurement date	<u>3,420,000</u>	<u>-</u>
	<u>\$9,659,669</u>	<u>\$4,228,647</u>

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2024 and 2023

NOTE 10 – IOWA PUBLIC EMPLOYEES’ RETIREMENT SYSTEM (IPERS)

The utility contributes to IPERS for full-time utility employees who have elected not to participate in the Plan provided by the utility. IPERS is a cost-sharing multi-employer defined benefit pension plan administered by the State of Iowa. IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive, PO Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits - A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member’s years of service plus the member’s age at the last birthday equals or exceeds 88, whichever comes first. (These qualifications must be met on the member’s first month of entitlement to benefits). Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member’s monthly IPERS benefit includes:

- A multiplier (based on years of service).
- The member’s highest five-year average salary. (For members with service before June 30, 2012, the highest three-year average salary as of that date will be used if it is greater than the highest five-year average salary.)

If a member retires before normal retirement age, the member’s monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month that the member receives benefits before the member’s earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50% for each month that the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member’s lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Contributions - Effective July 1, 2012, as a result of a 2010 law change, the contribution rates are established by IPERS following the annual actuarial valuation, which applies the IPERS Contribution Rate Funding Policy and Actuarial Amortization Method. Statute limits the amount rates can increase or decrease each year to 1 percentage point. The IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the “entry age normal” actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

IPERS members are required to contribute 6.29% from July 1, 2018 through June 30, 2025 of their annual covered salary. The utility is required to contribute 9.44% from July 1, 2018 through June 30, 2025 of employees covered annual salaries. The contributions to IPERS for the years ending December 31, 2024, December 31, 2023 and December 31, 2022 were \$110,137, \$79,667 and \$82,308, respectively, equal to the required contributions for those years. A measurement period of July 1, 2023 to June 30, 2024 has been used for the fiscal year ending December 31, 2024 for GASB 68 reporting.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 10 – IOWA PUBLIC EMPLOYEES’ RETIREMENT SYSTEM (IPERS) (cont.)

PENSION EXPENSE AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO IPERS

At December 31, 2024 and December 31, 2023, the utility reported a liability of \$369,181 and \$432,059, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of the preceding June 30, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The utility’s proportion of the net pension liability was based on the utility’s share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2024, the utility’s collective proportion was 0.009997%, which was an increase of 0.000633% from its proportion measured as of June 30, 2023. At June 30, 2023, the utility’s collective proportion was 0.009364%, which was a decrease of 0.001349% from its proportion measured as of June 30, 2022.

For the years ended December 31, 2024 and December 31, 2023, the utility recognized IPERS expense (income) of \$77,624 and \$70,632, respectively. As of December 31, 2024, the utility reported deferred outflows of resources and deferred inflow of resources related to IPERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between actual and expected experience	\$29,376	\$229
Changes of assumptions	-	5
Difference between projected and actual earnings	4,617	-
Contributions subsequent to measurement date	61,713	-
Changes in proportion and differences between contributions and proportionate share of contributions	82,349	82,782
	<u>\$178,055</u>	<u>\$83,016</u>

As of December 31, 2023, the utility reported deferred outflows of resources and deferred inflow of resources related to IPERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between actual and expected experience	\$36,553	\$1,776
Changes of assumptions	-	7
Difference between projected and actual earnings	40,014	-
Contributions subsequent to measurement date	39,887	-
Changes in proportion and differences between contributions and proportionate share of contributions	82,349	73,751
	<u>\$198,803</u>	<u>\$75,534</u>

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 10 – IOWA PUBLIC EMPLOYEES’ RETIREMENT SYSTEM (IPERS) (cont.)

Contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2025. Other amounts reported as deferred outflows and inflows of resources related to IPERS will be recognized in the pension expense as follows:

<u>Fiscal Year ending 12/31</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
2025	\$42,647	\$19,354
2026	38,918	17,176
2027	29,782	13,361
2028	4,255	13,361
2029	741	13,344
2030	<u>0</u>	<u>6,419</u>
Totals	<u>\$116,343</u>	<u>\$83,016</u>

There were no non-employer contributing entities at IPERS.

ACTUARIAL ASSUMPTIONS

The total pension liability in the June 30, 2023 and June 30, 2022 actuarial valuations were determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.6% (effective June 30, 2017)
Investment rate of return	7.0% (effective June 30, 2017)
Salary increases	3.25%-16.25% depending on years of service (effective June 30, 2017)
Wage base	3.25% (based on 2.6% inflation assumption and 0.65% real wage inflation; effective June 30, 2017)

The actuarial assumptions used in the June 30, 2024 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the PubG-2010 Mortality Table for all groups, with mortality improvements modeled using Scale MP-2021.

Several factors are considered in evaluating the actuarial assumed investment return including long-term historical data, estimates inherent in current market data, along with estimates of variability and correlations for each asset class, and an analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) were developed by the System’s investment consultant. These ranges were combined to develop the actuarial assumed investment return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The actuarial assumed investment return reflects the anticipated returns on current and future plan-assets and provides a discount rate to determine the present value of future benefit payments.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 10 – IOWA PUBLIC EMPLOYEES’ RETIREMENT SYSTEM (IPERS) (cont.)

The target allocation and best estimates of geometric long-term expected real rates of return are summarized in the following table:

Asset Class	As of June 30, 2024		As of June 30, 2023	
	Target		Target	
	Allocation	Rate of return	Allocation	Rate of return
Core-plus fixed income	25.5%	3.04%	23.0%	2.69%
Domestic equity	21.0%	3.52%	21.0%	4.56%
Private equity	17.0%	8.89%	17.0%	10.44%
International equity	13.0%	5.18%	16.5%	6.22%
Private real assets	9.0%	4.25%	9.0%	3.88%
Private credit	5.5%	4.25%	4.5%	4.60%
Global smart beta equity	5.0%	4.12%	5.0%	5.22%
Public credit	3.0%	4.53%	3.0%	4.38%
Cash	<u>1.0%</u>	1.69%	<u>1.0%</u>	1.59%
TOTAL	<u>100.0%</u>		<u>100.0%</u>	

The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from employees and employers will be made at the contractually required rates, which are set by the Contribution Rate Funding Policy and derived from the actuarial valuation. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the actuarial assumed investment return was applied to all periods of projected benefit payments to determine the total pension liability.

SENSITIVITY OF THE COLLECTIVE NET PENSION LIABILITY-IPERS TO CHANGES IN THE DISCOUNT RATE

	1% Decrease 6.0%	Discount Rate 7.0%	1% Increase 8.0%
Net Pension Liability-IPERS 12/31/24	\$905,965	\$369,181	(\$80,377)
Net Pension Liability-IPERS 12/31/23	\$918,653	\$432,059	\$24,285

Detailed information about the pension plan’s fiduciary net position is available in the separately issued IPERS financial report, which is available on IPERS website at www.ipers.org.

At December 31, 2024 and December 31, 2023, the utility reported payables to the defined benefit pension plan of \$10,328 and \$6,746 for legally required employer contributions and \$6,882 and \$4,495 for legally required employee contributions, respectively, which had not yet been remitted to IPERS.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended December 31, 2024 and 2023

NOTE 12 – SIGNIFICANT CUSTOMERS

Approximately \$23,449,000, or 26%, in 2024 and \$22,917,000, or 23%, in 2023 of the electric utility's operating revenues were derived from sales to one customer. Approximately \$4,556,000 or 52%, in 2024 and \$4,314,000 or 52%, in 2023 of the water utility's operating revenues were derived from sales to same customer.

NOTE 13 – COMMITMENTS AND CONTINGENCIES

A power purchase agreement for wind energy was originally entered into in December 2013. An amended and restated agreement was executed in June 2016. It is a 20-year agreement that commenced fourth quarter 2016 with the wind farm's December 15, 2016 commercial operation date. The wind farm is located in Jackson County, Minnesota, which is in the utility's Midcontinent Independent System Operator (MISO) local resource zone. Terms include a fixed first-year rate for delivered energy, with a 2.2% annual price escalation over the life of the agreement. The utility is subject to market risk up to a specified net loss for a 12-month period. The contract also includes a margin-sharing provision if the net energy earnings are positive.

The utility has committed to purchasing 219,000 tons of coal in 2025 under one contract with one supplier. If additional tons become necessary, they will be purchased on the OTC market or by working directly with a coal mining company.

The utility has rail transportation agreements with two separate companies for the delivery of coal. The utility's first agreement is for coal shipped from the Powder River Basin (PRB), Wyoming to an interchange with the local delivery carrier. The current contract with the BNSF Railway (originating carrier) was amended in 2022 and now expires December 31, 2027. The utility's minimum requirement is 100% of the tons shipped from the PRB up to the utility's annual tonnage nomination. In the event the utility does not meet its nominated tons, the utility has agreed to pay a per-ton fee as compensation for lost traffic.

The agreement with the Canadian Pacific Railway for the shipment of coal from the interchange point to the utility's generating station expires December 31, 2024. A new agreement is expected to be in place prior to the expiration of the current agreement. The Canadian Pacific Railway is only offering one-year agreements. The utility's minimum volume commitment (MVC) is 1,736 railcars or under 15 complete unit trains. In the event the utility does not meet that requirement the utility has agreed to an amount equal to the additional amount of freight charges that would have been due had the MVC been met.

The utility entered into a purchased power agreement with Nokomis Energy in November 2022 for a 30-year agreement for Nokomis Energy to develop, construct and operate a 24 MW solar project on utility-owned property. Completion of the project is anticipated to occur in the fourth quarter of 2026.

The utility is in the process of developing a natural gas-fired combined heat and power (CHP) unit with a nominal generation capacity of approximately 35 MW. The CHP unit will provide process steam to an adjacent customer of the utility and will sell electricity output into MISO, while providing local voltage support to utility. Commitments have been made for the CHP unit as follows:

- The utility entered into an agreement in July 2024 to sell steam to a local customer commencing in 2028, or when the CHP unit begins commercial operations. The agreement will remain in effect for 25 years starting from either the effective date or the commercialization date.
- The utility agreed to purchase a step-up transformer in May 2024 from WEG Transformers USA for \$1.9 million.
- The utility signed an agreement in August 2024 with Solar Turbines Incorporated (Solar Turbines) to manufacture and supply a combustion turbine-generator for \$21.1 million.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended December 31, 2024 and 2023

NOTE 13 – COMMITMENTS AND CONTINGENCIES (CONT.)

- The utility agreed to purchase a heat recovery steam generator in December 2024 from Rentech Boiler Systems, Inc. (Rentech) for \$7.6m.

The utility is committed to claiming direct pay tax credits that are available to government entities from the Inflation Reduction Act of 2022 (IRA). Those credits, which are anticipated in the calendar year after the unit achieves commercial operations, are anticipated to be in the range of \$8-12 million. The utility took steps in 2024 to better ensure compliance with the start-of-construction requirements in the IRA. Those requirements are that certain steps toward completion of the CHP unit were necessary by December 31, 2024. With the above steps and other actions, the utility believes it has met the requirements.

The unit is planned for completion in 2027, but no later than the end of 2028. The Iowa Utilities Commission (IUC) has issued a construction permit for the CHP unit. Two regulatory approvals remain: (1) Iowa Department of Natural Resources air permit, and (2) IUC approval of a short natural gas pipeline from the pipeline company metering station to the CHP unit.

To date, expenditures have been funded by available cash held by the electric utility. An approximate \$100 million financing is planned for 2025 that would cover previously expended funds and future capital expenditures. After the remaining regulatory approvals are obtained and financing is completed, the electric utility will provide notices to proceed to Solar and Rentech and will also initiate additional sitework and procurement steps.

NOTE 14 – ENVIRONMENTAL REGULATIONS

All generating units are in compliance with current state and federal regulations. Management anticipates that any additional costs incurred related to ongoing compliance with current or new environmental regulations will be recovered through rates charged to its electric utility customers.

NOTE 15 – INTERFUND AND RELATED PARTY TRANSACTIONS

The electric utility sold electric services to the water utility amounting to approximately \$1,233,700 in 2024 and \$1,319,000 in 2023. The electric utility sold electric services to the communications utility amounting to approximately \$51,300 in 2024 and \$50,200 in 2023. The electric utility purchased water from the water utility amounting to approximately \$344,700 in 2024 and \$355,100 in 2023. The electric utility purchased communications services from the communications utility amounting to approximately \$89,100 for 2024 and \$130,400 for 2023. The water utility purchased communications services from the communications utility amounting to approximately \$5,900 for 2024 and \$6,400 for 2023.

The electric utility rents space to the water utility and the communications utility at its Administration/Operations Center. Rent amounted to \$87,224 in 2024 and \$84,683 in 2023 for the water utility's rent and \$141,051 in 2024 and \$136,943 in 2023 for the communications utility's rent.

Electric utility accounts receivable from the water utility were \$99,738 and \$108,000 at December 31 of 2024 and 2023, respectively. Electric utility accounts payable to the water utility were \$28,416 and \$27,900 at December 31 of 2024 and 2023, respectively. Electric utility accounts receivable from the communications utility were \$8,548 and \$8,500 at December 31 of 2024 and 2023, respectively. Electric utility accounts payable to the communications utility were \$2,439 and \$5,400 at December 31 of 2024 and 2023, respectively. Water utility accounts payable to the communications utility were \$408 and \$400 at December 31 of 2024 and 2023, respectively.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2024 and 2023

NOTE 15 – INTERFUND AND RELATED PARTY TRANSACTIONS (CONT.)

The electric utility's interest receivable from the communications utility was \$0 at December 31, 2024 and December 31, 2023. Interest income on the loan amounted to \$18,091 for 2024 and \$25,596 for 2023.

The electric utility's interest receivable from the water utility was \$0 at December 31, 2024 and December 31, 2023. Interest income on the loan amounted to \$75,898 for 2024 and \$87,230 in 2023.

Costs incurred on a combined basis among the utilities are allocated to each utility on the basis of revenues, utility plant in service, labor expense and/or number of customers.

Some Board Trustees are also owners, officers and/or directors of companies that are customers of the utility. Most employees are also customers of the utility.

NOTE 16 – RISK MANAGEMENT

The utility is exposed to various risks of loss related to destruction of assets and natural disasters. The utility is also exposed to various risks of loss relating to torts, errors and omissions, health and injuries to employees. The utility purchases commercial insurance for claims related to these risks subject to certain deductibles. Open claims and an estimate for incurred but not reported claims are accrued up to deductible limits. Settled claims have not exceeded reserves in the last three years. There were no significant reductions in coverage compared to the prior year.

The health and dental and workers' compensation self-insurance reserves are shown below. These expenses tend to fluctuate based on claims.

(Thousands of dollars)	2024	2023	2022	2021	2020
Health/dental care self-insurance reserve					
Reserve liability, beginning of year	\$ 269	\$ 142	\$ 2,031	\$ 1,592	\$ 984
Add: Provision for reserve, current year	4,492	4,497	2,825	5,431	5,443
Less: Payments on reserve	(4,457)	(4,061)	(4,250)	(4,693)	(4,534)
Total Reserve Liability, end of year	305	578	606	2,330	1,893
Incurred but not reported claims	(251)	(309)	(464)	(299)	(301)
Non-Current Reserve Liability, End of Year	\$ 54	\$ 269	\$ 142	\$ 2,031	\$ 1,592
(Thousands of dollars)	2024	2023	2022	2021	2020
Workers' compensation self-insurance reserve					
Reserve liability, beginning of year	\$ 20	\$ 104	\$ 351	\$ 359	\$ 536
Add: Provision for reserve	136	30	35	145	218
Less: Payments on reserve	(73)	(114)	(282)	(153)	(395)
Reserve Liability, End of Year	\$ 84	\$ 20	\$ 104	\$ 351	\$ 359

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2024 and 2023

NOTE 17 – JOINT VENTURE

The utility is a member organization along with the City of Muscatine and the County of Muscatine in a joint venture under Chapter 28E of the Iowa Code to operate the Muscatine Area Geographic Information Consortium (MAGIC). The purpose of MAGIC is to improve the efficiency and effectiveness of its member organizations through the coordinated development of geographic and land information systems technology and data. MAGIC is governed by a six-member board composed of two appointees from each member organization. Each member organization has one vote on all matters. MAGIC's board determines the funding required by each member organization. Upon dissolution of the joint venture, the net position of MAGIC will be distributed on a pro-rata basis based on funding. Complete financial statements for MAGIC can be obtained from the Muscatine Power and Water Administration/Operations Center, 3205 Cedar Street, Muscatine, Iowa 52761.

The utility accounts for this investment under the equity method since it has the ability to exercise significant influence over the joint venture and it has an explicit equity interest in the joint venture. The utility has rights to the information systems technology and data. The utility's share of MAGIC's operating expenses is expensed as incurred.

NOTE 18 – CLOSURE AND POST-CLOSURE CARE COST

State and federal laws and regulations require the electric utility to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the electric utility reports a portion of these closure and post-closure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The \$1.5 million reported as landfill closure and post-closure care liability at December 31, 2024, represents the remaining cumulative amount reported to date based on the use of approximately 67% of the estimated capacity of the landfill's phases one and two. The electric utility will recognize the remaining estimated cost of closure and post-closure care of \$719,065 as the remaining estimated capacity is filled. Actual cost may be higher due to inflation, changes in technology, or changes in regulations. The electric utility is required by state and federal laws and regulations to file a statement to demonstrate financial assurance for closure and/or post-closure care costs.

NOTE 19 – POWER PLANT DECOMMISSIONING

The utility plans to decommission three power plant units at the generation plant once they are retired. A plant decommissioning liability was added in 2023 in accordance with GASB Statement No. 62 Accounting and Financial Reporting Guidance. Significant costs are expected to decommission the power plants and associated facilities. The Electric Utility has reflected a liability of \$12 million and plans to recognize depreciation expenses in advance of demolition. Electric rates will be set to recover these expenses and ensure adequate available cash reserves to pay for the costs when they are incurred. The Electric Utility will recognize a deferred outflow to recognize the expenditures for decommissioning over time. The liability will be updated based on such changes as inflation assumptions and decommissioning cost estimates from engineering studies. Depreciation of the deferred outflow based on the liability amount reflects the expected lives of the unit. All future electric cost of service studies for setting electric rates will include these estimated costs until decommissioning is completed.

MUSCATINE POWER AND WATER

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2024 and 2023

NOTE 20 – SUBSEQUENT EVENTS

COMMUNICATIONS RATES

In March 2025, the Board approved the Communications Utility's recommended MPW TV price adjustments effective May 1, 2025, and authorized the General Manager to continue to be responsible for approving tiers, bulk packages, premium services, equipment and other fees, promotional packages, and discounts for all MPW's Communications services as deemed necessary to ensure the financial viability of the Communications Utility.

POWER SUPPLY PLANNING

In March 2023, the Board approved MPW's investigation of: (1) extending the life of MPW's largest coal generation unit (Unit 9) beyond 2028, (2) building a 50 MW or smaller gas-fired combined heat and power unit that would produce electricity for the benefit of MPW customers and steam for a nearby industrial customer, and (3) adding 76 MW of renewable generation (solar and possibly wind).

ELECTRIC RATES

In March 2025, the Board approved an overall 6.0% base rate increase to be effective July 1, 2025 and a 5.1% base rate increase to be effective July 1, 2026 and an adjustment of the EAC deadband to 2.517-2.616¢/kWh from 1.135-2.39¢/kWh effective July 1, 2025.

WATER RATES

In March 2025, the Board approved water rate adjustments of 4% effective July 1, 2025 and 4% effective July 1, 2026.

CHANGES OF BENEFIT AND FUNDING TERMS:

There are no significant changes in benefit and funding terms.

CHANGES IN ACTUARIAL ASSUMPTIONS:

The 2022 valuation implemented the following refinements as a result of a quadrennial experience study:

- Updated mortality rates.
- Assumed retirement rates were modified.

The 2018 valuation implemented the following refinements as a result of a quadrennial experience study:

- Updated mortality rates.
- Assumed retirement rates were modified.

The 2017 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.

For the Year Ended December 31, 2024 (unaudited)

CHANGES IN ACTUARIAL ASSUMPTIONS CONT:

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%
- Decreased the assumed rate of interest on member accounts from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Reduced retirement rates for sheriffs and deputies between the ages of 55 and 64.
Moved from an open 30-year amortization period to a closed 30-year amortization period for the unfunded accrued liability (UAL) beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

**Independent Auditor’s Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

To the Board of Trustees
Muscatine Power and Water
Muscatine, Iowa

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of Muscatine Power and Water (Utility), a component unit of the City of Muscatine, Iowa, as of and for the year ended December 31, 2024, and related notes to the financial statements, which collectively comprise the Utility’s basic financial statements and have issued our report thereon dated April 21, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Utility’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Utility’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Utility’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Utility’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Utility's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Comments involving statutory and other legal matters about the Utility's operations for the year ended December 31, 2024, are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the Utility and are reported in Part III of the accompanying schedule of findings and responses. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Utility's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Utility's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

The image shows a handwritten signature in black ink that reads "Eide Bailly LLP". The signature is written in a cursive, professional style.

Dubuque, Iowa
April 21, 2025

Part I: Findings Related to the Financial Statements:

There were no findings to report.

Part II: Findings and Questioned Costs for Federal Awards:

Single audit did not apply for fiscal year 2024.

Part III: Other Findings Related to Required Statutory Reporting:

- 2024-IA-A **Adopted Budget** – No instances of noncompliance with the preparation and adoption of the Utility’s budget were noted.
- 2024-IA-B **Questionable Expenditures** – We noted no expenditures that we believe may fail to meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979.
- 2024-IA-C **Travel Expense** – No expenditures of the Utility’s money for travel expenses of spouses of Utility officials or employees were noted.
- 2024-IA-D **Business Transactions** – No business transactions between the Utility and Utility officials or employees were noted.
- 2024-IA-E **Bond Coverage** – Surety bond coverage of Utility officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure the coverage is adequate for current operations.
- 2024-IA-F **Board Minutes** – No transactions were found that we believe should have been approved in the Board minutes but were not.
- 2024-IA-G **Deposits and Investments** – No instances of noncompliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the Utility’s investment policy were noted.
- 2024-IA-H **Revenue Bonds** – No instances of noncompliance with the provisions of the Utility’s revenue bond resolutions were noted.
- 2024-IA-I **Telecommunications Services** – No instances of non-compliance with Chapter 388.10 of the Code of Iowa were noted.
- 2024-IA-J **Restricted Donor Activity** – No transactions were noted between the Utility and Utility Officials, Utility employees, and restricted donors in compliance with Chapter 68B of the Code of Iowa.
